

Is Your Workers' Comp PBM OVERCHARGING YOU?

Workers' compensation payers don't know if they're paying what they should for drugs. Obscure pricing methodologies and standards, dense contract language, obtuse definitions, and a byzantine supply chain make workers' comp pharmacy all but inscrutable.

CompPharma-HealthPlan Data Solutions audits bring clarity to pricing. Here are some of the overcharge issues our audits have revealed.

5 - 7%
**PREVENTABLE
LOSS**

MISLABELING
GENERIC DRUGS
AS BRANDS

PAYING FOR DRUGS
NOT RELATED TO
COMP DIAGNOSIS

PRICES NOT
MARKET
COMPETITIVE

PRICES HIGHER
THAN USUAL &
CUSTOMARY

NOT PROVIDING
REBATES

FAILING TO
UPDATE GENERIC
DRUG PRICES

What you don't know about your PBM's performance will cost you. Our audits typically uncover 5-7% in overcharges, money that belongs on your bottom line.
